Research Interests

- Ph.D. scholar in Electronics and Communication Engineering with research interests in wireless communications, massive MIMO, statistical signal processing, delayed channel state information, and channel aging. Focusing on developing efficient optimization algorithms for next-generation wireless communication networks.

Education

2023 – 2027 **Ph.D, Electronics and Communication Engineering NIT Raipur**
Thesis title: *Algorithms for performance improvement of FDD operated massive MIMO network with delayed CSIT.*

2019 – 2021 **M.Tech, Electronics and Communication Engineering, KIIT University** .
Thesis title: *Application of Adaptive Signal Processing Techniques for Channel Estimation of MIMO-NOMA Systems.*
CGPA: 9.07.

2014 – 2018 **B.Tech. Electronics and Instrumentation Engineering, KIIT University.**
Projects: *Applying ant algorithms in automatic design of novel magic charms.*
CGPA: 8.19.

Research Publications

Journal Articles

Skills

Languages	Strong reading, writing and speaking competencies for English, Hindi, Bengali.
Coding	Python, MATLAB, LaTeX.
Web Dev	Html.
